

COST Action CA21107

Work Inequalities in Later Life redefined by Digitalisation (DIGI-net)

1st Call (Extended) for the ITC Conference Grants

Grant period no 2

Applications for Inclusiveness Target Countries (ITC) Conference Grants

occurring between

30th May 2024 and 8th September 2024

The aim of the *COST Action 21107: Work Inequalities in Later Life redefined by Digitalisation (DIGI-net)* is to overcome critical gaps in conceptual innovation on the influence of digitalisation on work inequalities in later life, in order to address the research-policy disconnect and tackle work inequalities in later life redefined by digitalisation. The Action will enhance scientific knowledge by integrating the different disciplines and schools of thought, by developing collaborations with public policy officials, international policy bodies, non-academic professionals, civil society NGOs, trade unions, management of organisations and older workers themselves.

The Action is an innovative participatory, interdisciplinary, and cross-European network. The first area concerns social inequalities in cases where some groups are privileged, and other groups are marginalised. The second knowledge gap concerns organisational age culture in which stereotypes and discrimination are known to strongly shape organisational life for older workers in terms of hiring, training and retirement. A third largely unexplored central area concerns the complex interplay and connection between digitalisation of work and older workers' health, which is a vital condition for

extending working life. A fourth directions envisage policies and practices dealing with digitalisation and who are implemented by national governments as well as by European institutions and organisations. The fifth dimension of the CA21107 is focused on the social, corporate and news media reflecting and propelling stereotypes of older workers and digitalisation.

Purpose of the ITC Conference Grant

The ITC Conference consists of a presentation of the own work given by a Young Researcher and Innovator affiliated in an Inclusiveness Target Country / Near Neighbour Country for their participation in high-level conferences fully organized by a third party (not organized nor co-organized by the COST Action). The grantee receives support for attending and presenting their work (poster/oral presentation) at a conference and can establish new contacts for future collaborations.

The ITC Conference serve COST Excellence and Inclusiveness Policy, support Young Researchers and Innovators affiliated in a legal entity in an Inclusiveness Target Countries/ Near Neighbour Countries to establish a strong network and increase their visibility in the research community through sharing their work and to gain knowledge and can contribute to increasing visibility of the Action.
